Who?

Are we there yet? We've all heard that incessant question, eagerly asked by happy children the world over as they struggle to contain their excitement when a fun destination looms.

Welcome to Southside Kids, a fresh, new and inviting Paediatric service for the children of Adelaide's southern region.

The warm, welcoming and friendly environment is matched only by a high quality medical team who understand they are here to care for the whole child rather than just treat an illness.

Southside Kids' team of Paediatricians, Nurses, Allied Health professionals and support staff collectively offer the complete child-centred and family-focused management of paediatric disorders, appreciating that children have needs as diverse and unique as they are.

What?

In line with our holistic approach to Paediatrics, we offer a broad range of child health care services in a timely fashion, with all emergency referrals attended to within a week.

Our services include:

- General Paediatrics
- Paediatric Surgery and Urology
- Gastroenterology including endoscopies and colonoscopies
- Orthopaedic Surgery
- Paediatric Respiratory Medicine/Asthma
- Bladder and Bowel Dysfunction
- Paediatric Sleep Medicine
- Dietetics

We know going to the doctor is seldom fun, but we'd like to think we make the experience as pleasant as possible, and perhaps even prompt an occasional *'are we there yet?'* call from those we are here to care for.
